LAUNCH OF i-BEAK OFFERS INTERNATIONAL BUSINESS SOLUTION SERVICES

PLANS INCLUDE RESTRUCTURING J-BEAK TO BE
OWNED AND OPERATED BY i-BEAK

BOISE, Idaho – Business solutions company J-BEAK announced the global expansion and restructuring of its operations effective today, July 7, 2008. In the restructuring, J-BEAK will become a division of i-BEAK Inc. (International Business Environment, Answers and Knowledge). i-BEAK will have sole ownership of J-BEAK and will strategically align the business groups to appeal to a global market by adding additional support divisions.

“Our communication support division is booming,” said Rika Torres, president and founder of i-BEAK. “It’s important that we expand our business model to support a variety of languages and cultures, which prompted us to create i-BEAK.”

Originally founded as a communication company with a focus on business solutions, J-BEAK actively served the communication and public relations needs of U.S. and Japanese entities. The growth of J-BEAK and demand for communication services beyond the Japanese environment prompted the organizational change.

To support its growing customer base, i-BEAK plans to add two new divisions focused on business and education support to its portfolio. The Business Support division will focus on international sales and marketing. The Educational Support division will center on cultural education differences between Asia, Europe, and the U.S. and it will also include a business-writing curriculum aimed at foreign nationals working within the U.S.
